**The New
Democrats**

Ray Martin

and The New Democrats 

"The New Democrat plan will keep this a great province to live and work in.

By putting people first, we can make a brighter future for Alberta."

The plan to build a brighter future Let's get Alberta working, not cut and tax it away

Making jobs and opportunities

The New Democrat plan to get Alberta working begins with charging the economy with thousands of new jobs. Taking \$75 million in government waste in patronage and plum jobs to build our cities and communities is a first step. The plan is a new approach at directing Alberta's resources into good jobs, for today and for the future. Making sure people have secure jobs and opportunities will create new hope for Alberta.

Fair taxes, not more taxes

We can put a check on Alberta's debt by closing the loopholes and tax giveaways that have given billions to wealthy individuals and profitable corporations. Making Albertans pay for past waste with new taxes and cuts in services is unfair. This is the time to boost Alberta and our local businesses not saddle us with a provincial sales tax.

Putting people first

A fiscally-sound government must start with a commitment to safeguarding essential services like our health care and education. Other parties say we have to have "brutal cuts". Their cuts won't "save" Albertans money in the long run. The New Democrat plan is to reduce costs through coordinated planning, approaches like preventative, community-based health care.

Let's get  Alberta working

Safe, healthy communities

Giving people opportunities at good jobs is the best approach to preventing crime and building safer communities. Protecting a healthy environment and keeping Albertans safe on our streets and in our homes are key in the New Democrat plan.

Olive with friends (left to right) Nicole Dionne, Lloyd Verreault and Alanna McKenzie Dionne.

Olive Dickason is your candidate in Edmonton-Rutherford.

"Together we can:

- ❑ educate for a changing future
- ❑ create jobs through small-scale enterprises
- ❑ protect universal health care
- ❑ provide quality day care
- ❑ protect our environment
- ❑ work for fair taxation."

Olive Dickason taught Canadian and Aboriginal history at the University of Alberta. Earlier she was a journalist with several major newspapers including the *Regina Leader-Post* and the *Globe and Mail*. She successfully raised three children.

Olive has always stood up for human rights. Her recent challenge to forced retirement reached the Supreme Court of Canada.

Her service to the community includes:

- Board member, Women of the Metis Nation
- helping establish the School for Native Studies, University of Alberta
- Volunteer speaker in schools and for civic, provincial and national social service groups.
